Final project proposal

Type	Master
Title	***Personal Federated Search***
Supervisor	Ivan Chorbev
e-mail	ivan.chorbev@finki.ukim.mk
Department / Group	
Institute for Software engineering	
Topic(s)	
Information search and retrieval	
Project can start from	01.04.2014 – 01.03.2015
Project duration	4 months
Short description	
Contributing to or experimenting with a federated search system based on ezDL, a system for developing interactive search applications. Provide core services and operations for being able to search, using a federated method, multiple online resources. Query expansion by translation, multilingual search	
Results and assessment	
The results will contain a written report of the performed activities and results. A programmed functionality or experimental results are expected. The assessment by the supervisor will be continual during the work.
