Final project proposal

Type	Undergraduate
Title	*Boolean Functions*
Supervisor	Prof. Smile Markovski
e-mail	smile.markovski@finki.ukim.mk
Department / Group	
Institute of theoretical computer science	
Topic(s)	
Theoretical computer science, Switching theory, Cryptography, Hardware design	
Project can start from	01.10.2014
Project duration	4 months
Short description	
To learn theory of Boolean functions (definitions and standard properties) and its standard applications. It is an individual activity.	
Results and assessment	
A survey paper of around 30 pages to be prepared with a presentation	
Other (additional) information
