Final project proposal

Type	Undergraduate
Title	***Hash Functions***
Supervisor	Prof. Smile Markovski
e-mail	smile.markovski@finki.ukim.mk
Department / Group	
Theoretical foundation of informatics	
Topic(s)	
Cryptography, Theoretical computer science	
Project can start from	01.04.2014
Project duration	4 months
Short description	
It is an individual activity. The student should understand the theory behind the hash functions and the various applications of hash functions in computer science.	
Results and assessment	
A survey paper of around 30 pages to be prepared with a presentation	
Other (additional) information
